

What kind of Swing Glass Door is it?

There are two major manufacturers of Swing Glass Doors. The cooler will be made by another manufacturer, but the odds are that the doors are made by Anthony, Ardco (A Division of Anthony), or Styleline.

- **Anthony International / Ardco**
 - a. Anthony International doors will have “AI” or “Anthony” etched in the bottom right corner of the glass.
 - b. Ardco will have an identification plate on the top of the door.
 - c. If you have a bank of doors, the identification is on the top left side of the frame.
- **Commercial Refrigerator Door (also known as Styleline)**
 - d. If you have a bank of doors, the identification is on the top left side of the frame.
 - e. If it is a single door, there will be a sticker on the back by the light switch.

You may also find Hussman glass doors, but the complete unit will be made by Hussman, with obvious branding.
